

SUSTAINABILITY SERIES

Clean, Effective, Environmentally Friendly
VCI Packaging and Rust Removers for Industry

**DAUBERT
CROMWELL**

VCI Film Made With Recycled Material

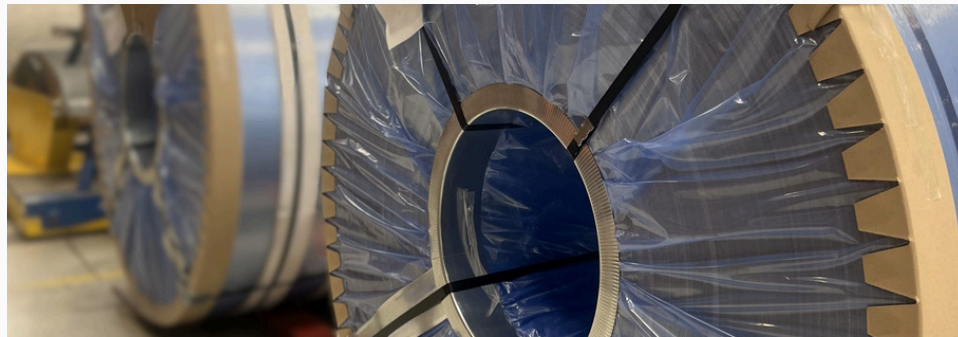

Minimum 30% recycled content as mandated by EU and UK plastics tax regulations.

PREMIUM METAL-GUARD RC

Safe, effective, corrosion inhibitor (VCI) film specifically engineered to provide best protection for multi-parts and surfaces. Protects wide range of ferrous/non-ferrous metals used in automotive, heavy equipment, and fabricated metals markets. Recyclable. Passes TL 8135 and TRGS 900 | Prop 65 | RoHS | NACE TM0208.

CLEARPAK 5000 RC

The next generation of environmentally friendly, non-nitrite VCI films for aluminum and steel that also meets international requirements for recycled content. Bio-based VCI chemistry protects steel and aluminum. Passes TL 8135 and TRGS 900 | Prop 65 | RoHS | NACE TM0208. Nitrite-free, amine-free. Recyclable.

VCI Film Made from Renewable Raw Materials

Superior rust protection with the highest level of care for the environment and worker safety.

CLEARPAK BIO

Sustainable, bio-based VCI film. Free of nitrites and secondary amines. Protects ferrous metals. TRGS 615 & 900 compliant; Passes TL8135-0043. All-natural VCI derived from plants.

CLEARPAK 5000

Innovative corrosion inhibiting film. Protects aluminum, copper and steel. Fully recyclable, amine-free. Nitrite-Free.

Daubert Cromwell offers a complete line of recyclable, RoHS compliant, non-nitrite, water-based, bio-based VCI products that meet most stringent national and international requirements.

VCI Papers

These anti-corrosion, anti-tarnish papers have earned the U.S. Department of Agriculture (USDA) Certified BioBased Product Certification. This distinction helps industrial and government customers choose VCI packaging that is manufactured to environmentally responsible standards.

Nox-Rust® Vapor Wrapper®
Protek Wrap®

Alumitex®

Liquid Rust Remover

RUST REVENGE®

Fast Acting, Powerful Environmentally Friendly Water-based **Rust Revenge®** safely soaks away rust from immersed parts. The non-toxic powerful rust removing liquid is a safe, pH neutral, non-acidic soak solution. Industrial strength Rust Revenge soaks away rust from engines, automotive parts, gears, bearings, tools, and other fabricated parts. Reusable. REACH, OEM approved.
